U.S. Probation Officer Action:

Mr. Davis was admonished for using another person's vape pen without asking what was in it. He was reminded of the risks he takes by doing this. Mr. Davis acknowledged he erred in doing this and would not be doing it again. He contacted his Merit counselor and disclosed the use as well. Because he was truthful and readily admitted his mistake, his treatment modality was unchanged.

Mr. Davis continued to submit drug tests which were positive for marijuana on February 15 and 23, 2023. These positive results were considered residual use. Mr. Davis ultimately submitted negative drug tests and to date, they have remained negative.

Based on Mr. Davis' being honest with this officer and his counselor, because he continues in substance abuse treatment without change, and as he is still employed and reporting as required, this officer respectfully recommends no action be take for Mr. Davis' violation behavior.

I declare under penalty of perjury that the foregoing is true and correct.
